Neha Mulekar

ReactJs | Angular | NodeJs | Javascript developer

E-Mail: nehakubal@gmail.com | **Phone:** +91 9870109559 | **LinkedIn:** linkedin.com/in/nehamulekar66

Highly experienced UI Developer with 10+ years of expertise in designing and developing scalable, responsive, and user-friendly interfaces using ReactJS, Angular, NodeJS, and JavaScript. Skilled in UI/UX principles, state management libraries such as Redux, and testing frameworks. Strong understanding of JavaScript, HTML5, CSS3, and CSS preprocessors. Proficient in Agile development methodologies and version control systems with experience of working in Banking, Telecom, Oil and Gas domain.

TECHNICAL SKILLS

Technologies/frameworks	ReactJS, Redux, Angular, AngularJS, NodeJS, PolymerJS, ExpressJS, Html5, CSS3, JavaScript, ES6, Typescript
Unit Testing	Jest, Enzyme, Jasmine, Karma, Mocha, chai, Sinon
IDE	Visual studio code, Eclipse, IntelliJ, WebStorm, NetBeans
Development Tools	Bitbucket, GitHub, Jira, SVN, Sourcetree, Zeplin, Figma, Bamboo, DBeaver, Postman, Splunk, Swagger
Development method	Agile methodology

PROFESSIONAL EXPERIENCE

TCS, Assistant Consultant (Mumbai, India)   **(May 2024- Current)**
Westpac Banking Corporation

I am working in Open banking application. This feature gives, a Westpac customer, the ability to share their banking data with other parties they trust, including other banks, online.

- My primary responsibilities in this organization are to interact with clients to gather requirements, develop applications/features and provide onsite live demos.
- Designed and developed responsive, scalable, and user-friendly interfaces using WDP components, handling middle-ware using Node, Express JS, Axios, and Swagger.
- Responsible for creating applications using React JS, Redux and Redux forms.
- Implemented Unit-test cases to ensure good code coverage using Jest, Enzyme, React-testing-library, Mocha, Chai, and Sinon.
- Responsible for Defect fixing and release support activities, Code deployments on different environments and fixing ISG code scan issues.
- Mentored junior developers and provided code reviews.

TCS, Assistant Consultant (Sydney, Australia)   **(Jul 2022- Apr 2024)**
Westpac Banking Corporation

Westpac banking application is used for Personal, Business and Corporate Banking. I worked on customer's ID verification, Mandated Payment (MPS), and Variable to fixed loan switching flow.

- My primary responsibilities in this organization were to interact with clients to gather requirements, develop applications/features and provide onsite live demos.
- Responsible for developing and designing reusable WDP UI components, and handling middle-ware using Node, Express JS, Axios, and Swagger.
- Also implemented mobile application's screens using HTML5, CSS3 and the reusable web components such as React GEL components. Implemented Unit-test cases to ensure good code coverage using Jest, Enzyme, React-testing-library, Mocha, Chai, and Sinon.
- I was responsible for carrying out code reviews and managing versioning for multiple applications.

TCS, IT-Analyst (Mumbai, India)   **(Sep 2020- Jun 2022)**
Westpac Banking Corporation

- My primary responsibilities were developing Responsive UI designing using Westpac GEL and Styled-Component, CSS.
- Developed WDP components, routes, events, forms using React JS.
- Implemented Unit-test cases to ensure good code coverage using Jest, Enzyme, React-testing-library, Mocha, Chai, and Sinon.
- Having experience of React lifecycle hooks, axios to make AJAX calls to populate data.
- Worked on fixing device specific Accessibility bugs.
- Having knowledge of code deployment on environment/swimlane.
- Worked on application's pages tagging and Analytics and audit fixes.
- Responsible for debugging and fixing technical and design issues and ensuring deliverables are achieved with acceptable quality.

TCS, IT-Analyst (Mumbai, India)   **(Mar 2019- Aug 2020)**
Bank of America (BOA)

Client Maintenance Tool (CMT) is used by high end clients for banking and investment purpose.
- My responsibilities were developing and designing responsive application using Bootstrap, HTML5, CSS3, Media Queries, Material-UI framework.
- Developed and maintained web application using Angular
- Involved in troubleshooting and resolving front-end issues.
- Worked on migration of existing Angular application into React JS.
- Developed components, controllers, and services in Angular
- Implemented Unit-test cases to ensure good code coverage using Jasmin, Karma.

CitiusTech, Sr. Software Engineer (Navi Mumbai, India)   **(Feb 2017- Feb 2019)**
General Electric (GE Oil & Gas)

This application is used to allow GE users to analysis data and maintenance of compressors and turbines located at different sites with helps of different types of graphs, charts and tables.

- My responsibilities were developing various custom reusable web components using Polymer JS and inbuilt Predix-UI components, HTML5, CSS3, and JavaScript.
- Experience of building Visualization web component with D3.js
- Implemented Unit-test cases to ensure good branch and code coverage using Web Component Testing(WCT) with Mocha, Chai, Sinon. Having knowledge of yeoman generator.
- I was responsible for defect analyzing and fixing.
- Also responsible for analyzing customer requirements, evaluating technology options and developing strategies.

Tech Mahindra Ltd, Software Engineer (Pune, India)   **(Mar 2014- Feb 2017)**
AT&T Telecommunications

This application is helping people mobilize their worlds - with advanced mobile services, next- generation TV and high-speed Internet services, and smart solutions for businesses. I worked on updating new and user-friendly enhancements for Profile, Forgot Id and Forgot Password in Mobility world for dynamic users.

- My responsibilities were developing various custom reusable web components using AngularJS
- I was involved in solving device specific issues in Angular JS. Having knowledge of working on CATO issues which mainly involves mobile 'talk back' or 'Voiceover' issues on Android or IOS respectively.
- Also coordinated with onsite teams leads for proper understanding the requirement and also develop the application for Client in given time period.
- Having experience of working with TDD approach which involves developing Jasmine test cases using karma test runner alongside development.
- Having experience of working with IST Team which includes designing, preparing and executing Test Cases.

ACADEMIC PROFILE

2013	BE	S.I.G.C.O.E, Navi Mumbai	74%
2010	Diploma	VJTI, Mumbai	82.74%
2006	Xth | Maharashtra Board	Parag Vidyalaya, Mumbai	87.86%
